Understanding what ChatGPT
is and how it works

Overview of the language
capabilities of ChatGPT

Examples of how ChatGPT can
be used in teaching

Introduction to ChatGPT and its language capabilities

How to use ChatGPT to generate reading texts

Creating pen pal letters with ChatGPT

Generating fill-in-the-blank activities with ChatGPT

Tips for integrating ChatGPT into lesson plans

Creating lesson plans with ChatGPT

How to use a rubric to assess work generated by ChatGPT

Providing feedback on student work using ChatGPT

Demonstrating examples of student work and feedback generated by ChatGPT

Marking work based on a rubric and providing feedback with ChatGPT

Using TTS, Natural Reader and Helperbird as a screen reader in conjunction with text generated by ChatGPT

Dictation and generating a transcript in MS Word, Turboscribe and Audiopen

Creating closed captions in Google Slides and MS PowerPoint

Using AI to promote inclusivity

How ChatGPT can be used to generate model answers for language practice

Using ChatGPT to offer tutoring features for language learners

Examples of model answers and tutoring features generated by ChatGPT

Using ChatGPT to generate model answers and offer tutoring features

Creating emoji sentences by translating text into emojis

How to use ChatGPT to translate text into emojis

Creating emoji sentences using the translated text

Examples of emoji sentences created using ChatGPT

Facilitating speaking practice conversations between students and ChatGPT

How to use ChatGPT to facilitate speaking practice conversations

Demonstrating examples of speaking practice conversations generated by ChatGPT

Creating an interactive e-book showcasing a range of multimedia learner outcomes including closed captions

Generating AI images using Padlet 'I can't draw', Microsoft Designer and Autodraw

Incorporating an interactive educational chatbot for personalised practice and support

Creating a talking avatar for promoting oracy skills

Using Book Creator to create visual resources for learning

Summarising the main points covered

Offering an opportunity for attendees to ask questions and clarify doubts

Conclusion and Q&A

Implementing Interactive Activities with ChatGPT
